

Industry Proven Time Tested

“I’ve been doing flooring since 1954 and I have never seen a product perform like this product performs.”

- Dewey Taylor, Master Craftsman

“It’s been the one product that has worked when all other products have failed.”

- Gary Selph, CEO Commercial Carpet Specialists

“It’s an excellent spray system. It definitely saves on manpower as far as crawling around on your hands and knees. It’s going to get you better quality of work towards the end of the day, because everyone is not exhausted from dragging glue buckets around on their hands and knees. It also eliminates down time, not just cuts it down but eliminates it completely. It also sticks very well. Nothing but good to say about it.”

- Tony Rossetti, ICI Flooring Trenton NJ

Proven Solutions:

Companies who have selected us to solve installation problems, moisture problems, high pH issues, reduce labor costs and occupy space faster.

*The included companies are not an endorsement. The purpose is to show those who have used our spray adhesive.
