- Instant Stick
- Allow all floor traffic INSTANTLY.
- No Offensive Odors

**Instant Access
To Deck**

CUT INSTALL TIME IN HALF!

Spray-Lock™ Modular Adhesive Technology is setting a new standard within the industry. Install floor-covering up to 50% faster when using Spray-Lock™ Modular Adhesive. There is virtually no waiting time for adhesive to tack up. It dries in minutes. Once adhesive has tacked up, you have hours of working time to install the floor-covering. Compared to other spray and trowel grade adhesive, this adhesive possesses an overwhelming amount of shear strength due to its Stable Bubble Technology™.

Minutes after applying the adhesive, the material will be unable to move left or right. It will have “zero slip”. This will allow you to set your walls into place without compromising your flooring installation.

Try Spray-Lock™ Modular Adhesive today and see what everybody is talking about!

“Minutes after applying the adhesive, the material will be unable to move left or right. It will have ZERO SLIP.”

ENVIRONMENTALLY FRIENDLY ZERO VOC ADHESIVE

Today, more than ever, the effects on human health and the environment of building and construction materials and activities are paramount. Employers are seeking assurance of better air quality for their employees. There are numerous long term health risks associated with traditional flooring adhesive products. These risks are becoming more and more relevant. In the past, flooring adhesives were selected solely because they were

effective and efficient. The new generation of eco-friendly adhesives have arrived and are now safer than they have ever been. Spray-Lock™ Modular Adhesive contains NO Volatile Organic Compounds (VOC's), which is one of the only flooring adhesives on the market with this ZERO VOC status. This adhesive also has no offensive odors and is applied with a safe, LOW PRESSURE SYSTEM.
