

Statement of Performance

October 26, 2012

Product Description

- **Formula:** Spray-Lock[®] FRP Adhesive
- **Material:** Parkland Plastics/Plastex
- **Material Acclimatization:** 48 Hours at 72 °F or 22 °C
- **Substrate Used:** Drywall

General Adhesive Information

- See Technical Data for adhesive specifications

Performance

The test results produced a strong bond with acceptable peel and shear strength. Materials tested are approved for use with our adhesive over acceptable substrates. Spray-Lock[®] does not warrant the dimensional stability of the product or material regardless of its thickness.

Application Notes

Adhesive was applied as per standard instructions
